DATE: April 24, 1987

TO: Distribution

FROM: 429/Head, Systems Safety, Quality and Reliability  
Division

SUBJECT: Closing of Marvin Road

As a result of the 8 FT. HTT Modifications Project, it is necessary that part of Marvin Road be closed permanently. On May 11, 1987, the segment of Marvin Road between Moffett Road and the entrance to the warehouse area will be closed to through traffic.

A new access road from the parking lot of Building 1267A to Marvin Road has been established, however this road is for emergency vehicle use only with warning signs and chains installed to preclude normal use. Employees are reminded that this road is not for general use.

Your cooperation in the Transition period will be appreciated.
